Profile Summary

As a Front-End Developer, I specialize in creating interactive, responsive, and user-friendly web applications using React.js, JavaScript, HTML, and CSS. I have a strong focus on building intuitive UI/UX designs, ensuring seamless user experiences across different devices.

I work with modern front-end frameworks like Tailwind CSS, and Material UI, optimizing performance and accessibility. My expertise also includes state management (Redux, Context API), API integration, and responsive design to create dynamic, high-performing applications.

Passionate about clean code, performance optimization, and staying up to date with the latest front-end trends, I strive to build web applications that are both visually appealing and highly functional. 🚀

Experience

Portfolio Website (React.js, Tailwind CSS)

Developed a **fully responsive** portfolio showcasing skills, projects, and contact information.

Implemented **dark mode toggle** and smooth scrolling for better user experience.

Developed a **fully functional calculator** with **basic arithmetic operations**

EDUCATION

University of Central and Punjab, Lahore, BSSE March 2023 - April 2027

CGPA: 3.06
